Event Reports:

If you've participated in a club event, please submit an event report to be included here by the 10th of each month. It doesn't have to be anything formal, just a brief description about the event and how it went. Credit will be given unless you request to be kept anonymous.

Upcoming Regional Events:

Currently there are no events due to the pandemic. Check NSN for the latest information.

Upcoming KAO/Public Events:

See NSN for latest information and new events as they are added

If you are looking for something to do astronomy related and the sky conditions are not good or you're looking for something astronomy related in the news or even a virtual activity, there are postings on our calendar that may be of interest to you. There are virtual events, live chats, Webinars, von Karman lectures, Cosmic Coffee Episodes, even observing events. The observing events could include planet oppositions, meteor showers, or greatest elongations. Go to the club's calendar to find out more information about each of the event postings. You can then select any of the listed calendar events and it will display more information about the event. You can scroll forward through the months to see new listings as they are posted. It is unfortunate nearly all live in person events have been canceled due to the pandemic, so this may fill that gap.

Due to the pandemic, Public Events for the next several weeks are canceled.
